## EVENT INFORMATION

- **About the event:** The 2018 Winter Games will be held at PyeongChang in the Republic of Korea February 9th-25th, 2018. This venue is about a 3.5-hour drive from downtown Seoul. Opening and closing ceremonies will take place at the PyeongChang Mountain Cluster, as will most snow sports. Ice sports will be held at the Gangneung Coastal Cluster. General aviation (GA) operators planning to attend this event should begin planning for parking, airport services, crew accommodation, and transportation as early as possible.
- **Airports:** Closest airport is Yangyang (RKNY), approximately a one hour drive to the Winter Games venues. Alternate airports to consider are Gimpo (RKSS) and Incheon (RKSI). While all three are airports of entry (AOEs) with full GA and ground support equipment (GSE) capabilities, Note that both RKSS and RKSI are approximately 109 miles from PyeongChang.
- **CIQ Clearance:** Unless using the general aviation terminal (GAT) facility at Gimpo (RKSS), crew and passengers will always clear customs, immigration and quarantine (CIQ) in the main commercial terminals in Korea. For main terminal clearance, passengers line up in the same queues as scheduled commercial travelers, but clearance usually takes less than 20 minutes. Crew can access dedicated crew clearance lines in Korea. Note that fast track clearance options for passengers are currently unavailable due to local security conditions. However, this situation may change in future.
- **CIQ Procedures:** On international arrivals, other than for tech stop purposes, passengers and luggage will be escorted to the terminal by the ground handler for immigration, customs and quarantine clearance. Depending upon local conditions and airport congestion, this process usually takes 10-20 minutes. From time to time customs officials may request additional screening of passenger and crew luggage.
